

water treatment

PRODUCT DATA SHEET

EAZY BWT-1

Product Code: 1001
Packaging: 25L

Product Group: Water Treatment
Issue/Date: 1.30 - 29/11/2007

PRODUCT DESCRIPTION

eazy BWT-1 is a uniquely blended liquid boiler treatment programme designed to inhibit scale formation and corrosion within the boiler circuit. The product contains additives to inhibit scale when hard water breakthrough occurs, inhibit corrosion in the boiler circuit as well as the condensate lines and scavenge minor traces of oil. The conditioned feed water will form a loose, non-adhering sludge that can easily be removed by blow down.

The polymeric phosphate dispersants and corrosion inhibitors meet FDA requirements and the product does not contain hydrazine.

APPLICATION & USE

It is recommended that product be used with good quality feed water and dosed into the feed water line after the feed water re-circulation off take. This should be done by diluting with distilled water or condensate and dosed over a 24 hour period.

DIRECTIONS FOR USE

Dosage:

Initial dosage depends on the prevailing boiler condition and the quality of the feed water. In general the dosage rate should be 2.5 to 5.0 litres per tonne of water.

Maintenance dosage should be 0.5 to 2.5 litres per day depending on test results.

Testing:

Eazychem boiler water test kits are used to monitor dosage and control parameters. These simplified tests are listed on the dosage and control charts. It is recommended that regular testing be carried out to ensure that levels of treatment and control are correct.

Blow Down:

Blow down may be necessary to reduce the amount of dissolved and suspended solids. This should be done in accordance with the boiler manufacturer's instruction.

HEALTH & SAFETY

Please refer to the Material Safety Data Sheet and Product Label for specific information.

LIMITATION OF LIABILITY

IMPORTANT: Eazychem's standard terms and conditions of sale apply and contain limitations on any liability that may be incurred by Eazychem arising in any way from the sale and use of any Eazychem products. In particular please note that Eazychem's terms and conditions state the following:

Except in respect of death or personal injury caused by Eazychem's negligence, or liability for defective products under the Consumer Protection Act 1987, Eazychem shall not be liable to the Buyer by reason of any representation (unless fraudulent), or any implied warranty, condition or other term, or any duty at common law, or under the express terms of the Contract, for loss of profit or for any indirect, special or consequential loss or damage, costs, expenses or other claims for compensation whatsoever (whether caused by the negligence of Eazychem, its employees or agents or otherwise) which arise out of or in connection with the supply of the Products (including any delay in supplying or any failure to supply the Products in accordance with the Contract or at all) or their use or resale by the Buyer, and the entire liability of Eazychem under or in connection with the Contract shall not exceed the price of the Products, except as expressly provided in these Terms.
