

EAZY BIOMSC

Product Code:	1411	Packaging:	1L, 20L, 25L
Product Group:	Hygiene & Sanitation	Issue/Date:	1.50 - 31/07/2015

eazy BioMSC is a specially selected blend of non toxic natural microbes combined with surfactants and perfume formulated to prevent the build up of uric acid scale in vacuum toilet systems.

It is used for promoting the breakdown of greases, oils fats and organic waste in drains which may lead to blockages if left untreated.

It may also be used as a general purpose floor and wall cleaner and is ideal for use in Evac systems.

Application and use

Some of the benefits include:

- Forms long lasting bio-film
- Gives a renewable source of highly effective enzymes
- Mild descaler
- Removes the need for hazardous chemicals
- Effective in hard and soft waters
- Can be used on a variety of applications
- Cost effective
- Significantly reduces effluent B.O.D. and C.O.D.

Directions for use

Waste Pipe Cleaning & Uric Acid Prevention:

For the effective prevention of uric acid build-up, dose 50mls of product directly to the drains on a daily basis.

Toilet Bowl Cleaning:

Product should be liberally applied to the toilet bowls and agitated by means of hand brushing and flushing.

General Cleaning:

For general cleaning such as floors, sinks and tiled areas use 100mls in 5 litres of warm water.

Odour Control:

For odour control in urinals, sinks etc spray product neat or up to 2:1 dilution.

CAUTION: Bleaches and other acid or caustic based cleaners are not recommended to be used as they will destroy the microbes that make product effective.

Health and Safety

Please refer to the Material Safety Data Sheet and Product Label for specific information.
